# Why **Formula Student App** ?

[Škoda & ICON partnered to support University teams providing access to the state-of-the-art Digital Wind Tunnel on cloud]

With its embedded best-practice for the Formula Student Competition you get the know-how and benefit from decades of CFD applied to motorsports development.

Once your simulations are completed, you can quickly compare the aerodynamics performances and improve your design within minutes.

- Upload your geometry model
- Select your vehicle speed
- Fire the ICON engine!

ICON has been an expert CFD engineering partner to industry for over 25 years. Its team of CFD/CAE experts and aerodynamicists has delivered more than 100 OEM Wind Tunnel and CFD campaigns worldwide in the last 5 years. With a global presence and offices in Europe, America and Asia, ICON ensures a continuous support.
